

CMSC 143: Object-Oriented Programming with Robots

Lab 11: Turtle Power

Due November 20, 2014

Make at least two of the following improvements to the `Turtle` class we designed and implemented in class.

1. Add a method (`setPenColor(c)`) to change the trail color.
2. Add a method (`setLineWidth(width)`) to change the trail line width.
3. Prevent the Turtle from leaving the window.

Learning Objectives

- Work with Classes
- Create Methods
- Create Attributes

Deliverables

Submit an electronic copy of your program via moodle.
